

Ahmad Mujtaba

AI & Automation Developer

(+92) 3440314568 | ahmadcheemaofficial@gmail.com | Lahore, Pakistan | LinkedIn | GitHub | Portfolio

About Me

AI & Automation Developer specializing in n8n workflow automation, Python backend microservices, and LLM integrations. Experienced in building autonomous AI agents, Retrieval-Augmented Generation (RAG) pipelines, and Voice AI assistants using LiveKit, Deepgram, and ElevenLabs.

Experience

Apex Innovation

Lahore, Pakistan

AI & Automation Developer

- Designed and deployed n8n workflow automation solutions integrating LLMs, databases, and third-party APIs.
- Built Python backend microservices with FastAPI, Docker, PostgreSQL, and vector search retrieval pipelines.
- Developed interactive AI voice agents and messaging bots with LiveKit, Deepgram, ElevenLabs, and webhooks.

CodeAlpha

Remote

Python Developer Intern

- Developed custom Python applications focusing on core programming logic, data structures, and OOP principles.
- Built interactive Python projects including Stock Portfolio Tracker and text-based Hangman game.

Projects

AI Call Agent | Python, LiveKit, Deepgram, ElevenLabs, Mistral AI, PostgreSQL

- Developed a real-time AI voice assistant with conversation memory, STT/TTS streaming, and multilingual support.

WhatsApp Approval Service | Python, FastAPI, WhatsApp Cloud API, SQLite, Webhooks

- Engineered an automated document approval system with webhook listeners and real-time WhatsApp Cloud API integration.

Slack Recipe Bot | n8n, Mistral AI, Pinecone, Slack API

- AI-powered Slack bot built with n8n workflows and Pinecone vector search for automated recommendations.

AI Weather Agent | n8n, Weather API, AI Workflows

- Intelligent weather assistant built with n8n automation workflows and live weather API integrations.

Stock Portfolio Tracker | Python

- Python application to calculate and track stock portfolio investment valuations (CodeAlpha Internship).

Hangman Game | Python

- Interactive text-based game built with Python word selection and scoring logic (CodeAlpha Internship).

Education

Khwaja Fareed University of Engineering & Information Technology (KFUEIT)

Rahim Yar Khan, Pakistan

Bachelor of Science in Computer Science (BSCS)

Sep 2020 – Jan 2024

Technical Skills

AI & Automation: AI Agents, Generative AI, RAG, Prompt Engineering, Workflow Automation (n8n)

LLMs & Frameworks: LangChain, LLaMA, Hugging Face, OpenAI API, Mistral AI, Google Gemini

Backend Development: Python, FastAPI, Docker, REST APIs, Webhooks

Databases: PostgreSQL, SQLite, Qdrant, Pinecone, FAISS

Voice AI: LiveKit, Deepgram (STT), ElevenLabs (TTS)

Tools & Platforms: Git, GitHub, WhatsApp Cloud API, Slack API, Telegram Bot API

Programming Languages: Python, SQL, HTML, CSS
